01

Take back control with an **all-in-one** solution

WisePay automates the management, collection, and reconciliation of credit card and direct debit request (ACH) payments, making it easier than ever before for you to get paid on time, every time.

Automatic payments improve your cash flow

By setting up automatic payments, you're able to empower customers with a seamless payment experience, and to ensure that you receive payments on time, every time. This can improve your cash flow, reduce the risk of late payments, and free time for you to focus on what matters most: Building your business.

Control how you send and receive payments

Transparency equals trust, and that means better business - no one likes hidden fees. Automatically schedule payments based on the invoice terms for each customer; tailor how your business on-charges or absorbs credit card fees and surcharges, and maintain clear communication with your customers.

Put an end to chasing payments

WisePay simplifies payment collection so you can easily manage scheduled payments, with flexible options to automatically schedule payments based on invoice terms for customers withstanding debt agreements for example, allowing you to get paid faster every time (with one system, fewer delays).

02

Make it even **easier for your customers to pay you**

Automatic payments can help you to build stronger relationships with your customers by motivating them with a secure and hassle-free payment experience that promotes loyalty and trust.

With WisePay for PSA, your customers can:

- Easily pay for invoices via Credit Card or Bank Debit
- Send secure payments without a login
- Save, add, or edit payment methods (DDR / ACH / and CC payments)
- Set up Automatic Payments and schedule payments in advance
- View and download invoices

Schedule credit card and bank payments

Customers are invited to make an immediate on-the-spot CC payment without an account or login, or alternatively, they can self-register and save their preferred payment method, which makes scheduling future payments straightforward for them - and reduces the risk of overdue payments for you.

An end-to-end PCI-compliant solution

Assure your customers are protected with a secure, PCI-compliant payment platform trusted worldwide. Not to mention fewer delays and greater payment flexibility with more options to choose from.

05

WHY WISEPAY

"It's been one of the most impactful tools."

Matt Maupin | President, Matador Networks

When Matt's bookkeeper of nine-and-a-half years resigned, he unearthed 'a manual disaster,' one 'big mess' everywhere from his PNL to his general ledger, that led to the ultimate decision: "I had to pursue automation." Now, on the other end of his journey, Matt's no longer "burdening those convenience fees," while reaping overall cost-savings of \$45.6K+ per year - [and that's just the beginning.](#)

"I hate to use the phrase 'life-changing,' but it really has been one of the most impactful tools that I've put into place for my business. Now, I have valuable insights that I wasn't able to access before."
